No. 4 of 6 copies, Series A

G. L. Karl, Manager, St. Louis Area

October 1, 1948

F. M. Belmore, Director, Production Division, New York

STORAGE SPACE IN ST. LOUIS AREA

REFER TO
SYMBOL: PU:RMV

PLANTS, LABS., BUILDINGS & LAND 5 (St. Louis)

Some question has recently arisen as to the possibility and/or desirability of duplicating in another location, possibly St. Louis, the Middlesex operations.

Consequently, the following information is required by this office:

DOE-OR
George Thoenig
DOE of 2/24/57
Date

1. The cost of obtaining in the St. Louis Area a duplicate of the Middlesex plant and storage area.
2. The cost of obtaining a storage area for storing 1,000 to 1,500 tons of ore in drums
3. The barge rates from New Orleans to St. Louis (for drums of ore).

Attached hereto is a copy of a memorandum from Mr. Consiglio to Mr. Belmore outlining the building area and storage area available at Middlesex. This will give you some idea of the type of set-up that would be necessary in terms of space and buildings area as far as the duplication of Middlesex is concerned. Please remember that the buildings and so forth do not necessarily have to be the same size.

In regard to request No. 2, the intention would be to obtain an area or a building for storing ore in drums only and would not contemplate the carrying out of sampling operations. In other words, we are talking about a location for the dead storage of ore.

Request No. 3 ties into No. 1 in that if the sampling operation was removed to the St. Louis Area, we will want to evaluate the possible use of barge vs. rail freight.

We would like you to look around for locations suitable for No. 1 and No. 2 above, and would like to receive estimates on the cost of such locations.

DEPARTMENT OF ENERGY DECLASSIFICATION REVIEW	
1st Review Date: 6-2-78	Determination (Circle Number(s))
Authority: <i>BYC DADD</i>	1. Classification Retained
Name: <i>Thoenig</i>	2. Classification Changed To:
